

Anti-Corruption policy.

3Sun S.r.l., a company of the Enel Group (hereinafter the “Company” or “3Sun”), aims to become the largest European factory for the production of high-performance bifacial photovoltaic cells and modules, combining research, innovation, and sustainability to contribute to the spread of clean and renewable energy.

In this context, 3Sun also plays a strategic role in the reshoring process of the photovoltaic manufacturing supply chain in Italy and Europe, fostering the strengthening of the continent’s industrial autonomy, the resilience of supply chains, and the creation of value along the entire value chain. Through the development of advanced production capacity and the involvement of industrial and technological partners, the Company makes a concrete contribution to the revival of the European photovoltaic industry, promoting a sustainable, innovative, and globally competitive development model, as well as the construction of an environmentally responsible growth model.

The Company acknowledges that corruption represents a serious obstacle to economic, political, and social development, as well as a significant distortion of the principles of fairness, transparency, and free market competition.

Therefore, in carrying out its activities, 3Sun is committed to fully complying with the principles and rules set forth in the **Code of Ethics**, the **Enel Group Zero Tolerance of Corruption Plan**, the **Enel Group Human Rights Policy**, and the **Organizational, Management and Control Model pursuant to Italian Legislative Decree No. 231 of June 8, 2001**, which together constitute the pillars of its anti-corruption prevention system.

In line with these principles, the Company pursues the following general objectives in the prevention and fight against corruption:

- the **absolute prohibition** of engaging in any conduct that may constitute acts of corruption or attempted corruption, in any form and towards any party;
- strict **compliance with applicable anti-corruption laws and regulations**, both at national and international level, as well as with internal provisions;
- the implementation and maintenance of an **Anti-Corruption Management System compliant with ISO 37001**, as a tool for mitigating corruption risks and ensuring continuous improvement;
- the **strengthening and promotion** of an organizational culture based on integrity, transparency, and ethical business conduct;
- the **encouragement of reporting** any suspected unlawful or non-compliant behavior through accessible reporting channels available to employees and stakeholders, while ensuring full protection of whistleblowers against any form of retaliation;
- the enforcement of compliance with this Policy through the **application of the Company’s disciplinary and sanctioning system**;
- the establishment of an **Anti-Corruption Function**, composed of representatives from the Legal and Corporate Affairs and HSEQ & Security departments, granted adequate authority, independence, and access to relevant information;
- the **continuous awareness-raising and training** of employees on anti-corruption matters.

This Policy is adopted by 3Sun and is communicated and disseminated to all relevant stakeholders. It is essential that all employees and collaborators share its values and principles and actively contribute to the achievement of its objectives, in compliance with applicable laws and internal guidelines.

The effectiveness and adequacy of this Policy are subject to **periodic review**, in order to ensure alignment with 3Sun’s corporate strategy and its suitability in relation to the regulatory and business environment in which the Company operates.

Catania, 08/06/2026

Stefano Lorenzi
Chief Executive Officer
3Sun S.r.l.
